web developer · [braverydanger.com](http://braverydanger.com)

1638 South 16<sup>th</sup> St. · Philadelphia, PA 19145 · 202.642.5527 · [braverydanger@gmail.com](mailto:braverydanger@gmail.com)

*profile* ... **A loyal workhorse**, student of human behavior, and technically proficient engineer of interaction. With a background in the visual arts & design, and a steadfast love for code, I develop applications with clear objectives, clean lines, and a penchant for getting the job done.

## *experience* ...

**Ingram Digital** **Application Developer**  
**Philadelphia, PA**  
May '08 – Aug '10  
Wrote succinct, object-oriented JavaScript as well as clean, semantic HTML & CSS to develop and design the front end for Ingram's massive digital audio library.

- Designed and developed Ingram's content management system for uploading and maintaining audio and sales resources
- Successfully implemented a full, front-end audio editing system using the JavaScript (HTML5) Web Database spec

**iofy corporation** **Webmaster & Art Director**  
**Philadelphia, PA**  
Jan '07 – May '08  
Administered **iofy's** web presence and marketing materials. Worked with a team of developers to produce an expansive library of audio applications.

- Built and maintained **iofy's** website, as well as dozens of secondary and tertiary web marketplaces
- Created several corporate content and user management systems

**freelance work** **Website Design & Development**  
**everywhere**  
'06 – present  
Worked with a variety of clients to deliver efficient, easy-to-maintain websites and online solutions.
